co-located with

26th IEEE International Requirements Engineering Conference (RE'18)

Call for Papers

Model-Driven Development (MDD) is a paradigm for software development where models are no longer simple mediums for describing software systems or facilitating communication. In MDD, models become *first-class citizens*, and a software system is obtained through the definition of models at different abstraction layers. Models of a certain abstraction layer are derived from models of the upper abstraction layer by means of automatic model transformations, providing faster and more reliable results.

The *Eighth International Model-Driven Requirements Engineering (MoDRE) workshop* continues to provide a forum to discuss the challenges of Model-Driven Development (MDD) for Requirements Engineering (RE). Building on the success of MDD for design and implementation, RE may benefit from MDD techniques when properly balancing flexibility for capturing varied user needs with formal rigidity required for model transformations as well as high-level abstraction with information richness. MoDRE seeks to explore those areas of RE that have not yet been formalized sufficiently to be incorporated into a model-driven development environment (e.g., requirements elicitation, flexible or collaborative requirements engineering, requirements sketching, as well as requirements negotiation and prioritization). Reuse of requirements models and management of requirements at runtime become distinct possibilities with MDD and model transformations. This workshop intends to identify new challenges, discuss on-going work and potential solutions, analyze the strengths and weaknesses of MDD approaches for RE, foster stimulating discussions on the topic, and provide opportunities to apply MDD approaches for RE.

Topics of Interest

Submissions are welcome in all workshop topics including (but not limited to) the following: *modelling languages* and *metamodels* for RE approaches, requirements *reuse*, *synchronicity* and *consistency* of requirements models, requirements models *at runtime*, *automatic analysis* of requirements models, *model transformations* for RE, *evaluation* of MoDRE, *simulation* of requirements models, and MoDRE *in industry*.

Submission and Publication

Participants are invited to submit *research papers (eight (8) to ten (10) pages)*, *short research papers (four (4) to five (5) pages)*, *position papers (four (4) to five (5) pages)*, or *industry papers (four (4) to ten (10) pages)*. Full research papers report on findings for problems related to MoDRE that are novel and improve on or analyze existing solutions. Short research papers report on initial work that may not yet have been fully developed. Position papers report on ideas and visions for the future of MoDRE. Industry papers describe experiences related to the adoption of MoDRE or highlight future challenges. Previously published papers or papers accepted or under review for other publications are ineligible for submission to MoDRE 2018. Papers must be in pdf format, written in English, and formatted according to the IEEE formatting instructions detailed on the workshop website. At least three members of the program committee will evaluate the technical contribution of each submission as well as its accessibility to the audience. Papers will be judged on quality, significance, relevance, originality, substance, correctness, and clarity.

Accepted papers will become part of the workshop proceedings and will be submitted for inclusion into the *IEEE Digital Library*. Workshop presentations will be posted on the

MoDRE website. Acceptance of a paper implies that one of the authors registers for the workshop to present the submission; failure to do so by the early registration deadline will result in the paper being withdrawn from the workshop proceedings. IEEE reserves the right to exclude a paper from distribution after the workshop (e.g., by not placing it into the IEEE Digital Library) if the paper is not presented at the workshop.

ORGANIZING COMMITTEE

Ana Moreira, Universidade Nova de Lisboa, Portugal
Gunter Mussbacher, McGill University, Canada
João Araújo, Universidade Nova de Lisboa, Portugal
Pablo Sánchez, Universidad de Cantabria, Spain

PROGRAM COMMITTEE

Vasco Amaral, Universidade Nova de Lisboa, Portugal
Joanne M. Atlee, University of Waterloo, Canada
Luciano Baresi, Politecnico di Milano, Italy
Nelly Bencomo, Aston University, UK
Jean-Michel Bruel, Université de Toulouse, France
Betty Cheng, Michigan State University, USA
Ruzanna Chitchyan, University of Bristol, UK
Jane Cleland-Huang, University of Notre Dame, USA
José María Conejero, Uni. de Extremadura, Spain
Mustafa Berk Duran, McGill University, Canada
Kleinner Farias, Uni. do Vale do Rio dos Sinos, Brazil
Xavier Franch, University Politècnica de Catalunya, Spain
Martin Glinz, Universität Zürich, Switzerland
Arda Goeknil, University of Luxembourg, Luxembourg
Martin Gogolla, Universität Bremen, Germany
Renata Guizzardi, Uni. Federal do Espírito Santo, Brazil
Emílio Insfran, Universitat Politècnica de València, Spain
Juan de Lara, Universidad Autónoma de Madrid, Spain
Julio Leite, Pont. Uni. Católica do Rio de Janeiro, Brazil
Nicholas Matragkas, University of Hull, UK
Anna Medve, Pannon Egyetem, Hungary
John Mylopoulos, Università di Trento, Italy
Elena Navarro, Universidad de Castilla-La Mancha, Spain
Nan Niu, University of Cincinnati, USA
Oscar Pastor, Universitat Politècnica de València, Spain
Anna Perini, FBK Center for Inf. Technology - IRST, Italy
Alfonso Pierantonio, Uni. degli Studi dell'Aquila, Italy
Carme Quer, Uni. P. d. Catalunya - BarcelonaTech, Spain
William Robinson, Georgia State University, USA
Mehrdad Sabetzadeh, Uni. of Luxembourg, Luxembourg
Eugene Syriani, University of Montreal, Canada
Massimo Tisi, Ecole des Mines de Nantes, France
Jose Luis de la Vara Gonzáles, Uni. C. III de Madrid, Spain
Antonio Vallecillo, Universidad de Málaga, Spain
Manuel Wimmer, Technische Universität Wien, Austria
Tao Yue, Simula Research Laboratory, Norway

IMPORTANT DATES in 2018

JUNE 5 ABSTRACT SUBMISSION

JUNE 12 PAPER SUBMISSION

JULY 6 ACCEPTANCE NOTIFICATION

JULY 17 CAMERA-READY VERSION
